🌐 Portfolio

Sector-62, NOIDA

### Profile

I am a tech-savvy Full Stack Developer with 3+ years of experience delivering scalable web applications, dashboards, and end-to-end digital products. I'm comfortable working across any tech stack and have strong expertise in Python, MERN, PERN, REST APIs, microservices, and database design. I also specialize in UI/UX design and handle deployment, scaling, cloud hosting, and database management. Beyond development, I have a deep interest in philosophical thinking, which adds clarity and creativity to my work.

### Technical Skills

**Languages & Frameworks:** Elixir, Java, Python/Django/FastAPI, JavaScript/TypeScript, React/Node.js

**Tech Stack:** MERN Stack, PERN Stack, REST APIs, HTML/CSS/JavaScript

**Tools & Technologies:** Docker, Kubernetes, Selenium, Playwright, Git/GitHub, Figma, UI/UX Design, DBMS, Blade

**Languages:** Hindi and English

### Work Experience

#### Essentia.dev

Present

Full Stack Developer

2024 – 2026

- Developed full-stack applications using Elixir, Phoenix, Django, and React, with scalable architectures and optimized databases.
- Designed modern UIs with Figma, DaisyUI, and Tailwind, and deployed reliable, production-ready systems.

#### Essentia.dev

2024 – 2025

Full Stack Developer - Intern

- Worked on client projects using Django and MERN, contributing to both backend and frontend development.
- Gained hands-on experience with Linux environments (RHEL, Ubuntu) and collaborated through GitHub for version control and project management.

#### Naresh i Technologies

2023 – 2024

Frontend - Intern

- Learned Python, HTML, CSS, JavaScript, Linux commands, Git/GitHub, and various IDEs.

#### Dotsquares

2022 – 2023

Testing - Intern

- Worked on HTML, CSS, JavaScript, Linux commands, Git/GitHub, Raspberry Pi, latency testing & optimization, Selenium automation testing, and web scraping.

### Projects

#### VRDDHIM INNOVATIONS | Python, FastAPI, Django, Pandas, Tailwind CSS | [View Project](#)

- Built a scalable backend using Python (FastAPI, Django) with Pandas for data processing and Tailwind CSS for a clean, responsive UI.

#### VRDDHIMAN ANALYTICS | Python, FastAPI, Django, Pandas, PostgreSQL | [View Project](#)

- Developed a data analytics dashboard using Python, FastAPI, Django, Pandas, and PostgreSQL to analyze and visualize structured business data.

#### MINDLIFE | Python, Django, React, Tailwind CSS | [View Project](#)

- Created a full-stack wellness platform using Python (Django) and React, implementing secure APIs and responsive UI with Tailwind CSS.

#### AGENTIC TAILORED AI PROJECT | Python, FastAPI, LangChain, LLMs, Vector Databases

- Built an AI-powered system using Python, FastAPI, LangChain, LLMs, and vector databases for intelligent data retrieval and task automation.

#### Internet Speed Web | Python, JavaScript | [View Project](#)

- Developed a network performance analysis tool using Python and JavaScript to measure, analyze, and report real-time internet speed metrics.

**SAAS MODULE | Python, FastAPI**

- Designed a scalable SaaS backend using Python (FastAPI) with modular APIs, authentication, and database integration.

**Personal Portfolio Site | React, TypeScript, Node.js | [View Project](#)**

- Built a responsive personal portfolio using React, TypeScript, and Node.js, showcasing projects with smooth animations and modern UI.

**SHOAIB FITNESS SITE | React, TypeScript | [View Project](#)**

- Developed a fitness web application using React and TypeScript, focusing on reusable components and optimized frontend performance.

**WEATHER DASHBOARD APPLICATION | Node.js, Python, React, TypeScript, MongoDB | [View Project](#)**

- Developed a weather dashboard application using Node.js and Python backend, with React + TypeScript frontend and MongoDB to collect, analyze, and visualize temperature and weather data.

**Education**
