

SHOAIB

Full Stack Developer — Python & Java

Phone: +91-8299152270 Email: smohdshoaib208@gmail.com LinkedIn GitHub Portfolio
Location: Sector-62, NOIDA

Professional Summary

Full Stack Developer with 3+ years of experience building enterprise-grade applications using Python, Java, Spring Boot, Django, FastAPI, and React. Expertise in microservices architecture, RESTful APIs, database optimization, cloud deployment, and DevOps practices. Proven ability to deliver scalable solutions with both Python and Java ecosystems, following Agile methodologies and industry best practices.

Technical Skills

Programming Languages: Python, Java, TypeScript, JavaScript (ES6+), SQL, HTML5, CSS3
Python Frameworks: Django, Django REST Framework, FastAPI, Flask, Celery, SQLAlchemy, Django ORM
Java Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Spring Security, Hibernate, Maven, Gradle
Frontend Development: React.js, Next.js, TypeScript, Redux, React Hooks, Tailwind CSS, Bootstrap, Material-UI
API Development: RESTful APIs, GraphQL, Microservices, API Gateway, WebSockets, Swagger/OpenAPI, Postman
Databases: PostgreSQL, MySQL, MongoDB, Redis, Elasticsearch, Database Design, Query Optimization, Indexing
Data Science & AI: Pandas, NumPy, Scikit-learn, LangChain, OpenAI API, Hugging Face, LLM Integration, Prompt Engineering
DevOps & Cloud: Docker, Docker Compose, Kubernetes, AWS (EC2, S3, RDS, Lambda), CI/CD, Jenkins, Git/GitHub, Linux, Nginx
Testing & Quality: Pytest, JUnit, Mockito, Selenium, TestNG, Unit Testing, Integration Testing, Postman
Message Queues: RabbitMQ, Celery, Apache Kafka, Redis Queue
Payment Integration: Stripe, Razorpay, Payment Gateway Integration, Webhook Handling

Work Experience

Essentia.dev

Present

Full Stack Developer (Python & Java)

2024 – 2026

- Architected and deployed full-stack applications using Django, FastAPI, Spring Boot, React, and TypeScript serving 10,000+ users with 99.9% uptime.
- Developed microservices with Spring Boot and FastAPI, implementing RESTful APIs with JWT authentication, OAuth2, and Spring Security.
- Integrated payment gateways (Stripe, Razorpay), LLM APIs, and third-party services using both Python and Java frameworks.
- Optimized PostgreSQL/MongoDB databases with JPA, Hibernate, and Django ORM, reducing query time by 60% through indexing and caching strategies.
- Implemented data pipelines using Pandas, NumPy, and Spring Batch for ETL processes and analytics features.
- Deployed containerized microservices using Docker, Kubernetes, AWS (EC2, S3, RDS), with CI/CD pipelines via GitHub Actions and Jenkins.
- Built real-time features using WebSockets, Celery, RabbitMQ, and Apache Kafka for asynchronous processing and message queuing.

Essentia.dev

2024 – 2025

Backend Developer - Intern (Python & Java)

- Developed backend APIs with Django, FastAPI, and Spring Boot, implementing authentication, authorization, and role-based access control.
- Built database models with Django ORM, SQLAlchemy, Spring Data JPA, and Hibernate for complex business logic and data relationships.
- Integrated Redis caching layer reducing database load by 40% and improving API response times by 50%.
- Implemented data analysis features using Pandas and NumPy, created RESTful endpoints for analytics dashboards.
- Wrote comprehensive unit and integration tests with Pytest, JUnit, and Mockito achieving 85%+ code coverage.

Naresh i Technologies

2023 – 2024

Full Stack Developer - Intern

- Developed full-stack applications using Django, Spring Boot, React, PostgreSQL, and MongoDB with RESTful APIs and responsive UIs.

- Implemented data visualization dashboards using React, TypeScript, and backend data processing with Python and Java. - Integrated third-party APIs including payment processing systems, email services, and cloud storage solutions. - Participated in Agile development cycles, code reviews, and collaborated with cross-functional teams.	
Dotsquares	2022 – 2023
<i>QA Engineer & Full Stack Testing - Intern</i>	
- Performed comprehensive API testing with Postman for both Python and Java applications, ensuring reliability and performance. - Conducted database validation, data integrity testing, and SQL query optimization for PostgreSQL and MySQL databases. - Implemented automated testing frameworks using Selenium, Pytest, and JUnit for regression and functional testing. - Collaborated with development teams to identify and resolve bugs, improving overall software quality and performance.	
Education	
AKTU University, Lucknow	2024
<i>Bachelor of Technology in Computer Science – 7.79 SGPA</i>	
Certifications & Achievements	
Technical Certifications: Spring Framework Certification, Python Django Development, AWS Cloud Practitioner Key Achievements: Built 8+ production applications, Reduced API response time by 60%, Achieved 99.9% uptime across deployed services
