

SHOAIB KHAN

Full Stack Developer | Python Backend Developer | AI Engineer

+91-8299152270 | smohdshoaib208@gmail.com | linkedin.com/in/shoaib-khan-4b441a23a | github.com/Shoaib552 | [Portfolio](#)

Professional Summary

Full Stack Developer with 3+ years of experience building web applications, backend systems, REST APIs, and AI-powered solutions using Python and modern technologies. Experienced in Django, FastAPI, React, PostgreSQL, MongoDB, Redis, Docker, AWS, and Azure. Built scalable applications serving thousands of users and developed AI features using LangChain, OpenAI APIs, RAG, and vector databases to automate business workflows and improve efficiency.

Technical Skills

Languages: [Python](#), [Node.js](#) ([Express.js](#), [NestJS](#)), [Go](#), [C](#)

Backend: [Python](#), [Django](#), [Django REST Framework](#), [FastAPI](#), [Flask](#), [REST APIs](#), [GraphQL](#), [JWT Authentication](#), [Microservices](#)

Frontend: [React.js](#), [Next.js](#), [Angular](#), [TypeScript](#), [JavaScript](#), [HTML](#), [CSS](#)

AI & Data: [LangChain](#), [OpenAI API](#), [RAG](#), [AI Agents](#), [Prompt Engineering](#), [ChromaDB](#), [Ollama](#), [Pandas](#), [NumPy](#), [Scikit-learn](#), [ETL Pipelines](#)

Machine Learning: [Supervised Learning](#), [Unsupervised Learning](#), [Model Training](#), [Feature Engineering](#), [Hugging Face](#), [TensorFlow](#), [PyTorch](#), [Transformers](#), [Embeddings](#), [Fine-tuning](#), [Sentence Transformers](#)

Databases: [PostgreSQL](#), [MongoDB](#), [Redis](#), [MySQL](#), [SQLAlchemy](#), [Database Optimization](#)

Cloud & DevOps: [Docker](#), [Kubernetes](#), [AWS](#) ([EC2](#), [S3](#), [Lambda](#), [RDS](#)), [Azure Blob Storage](#), [GitHub Actions](#), [CI/CD](#), [Linux](#), [Nginx](#), [Celery](#), [Temporal](#)

Tools: [Git](#), [Regex](#), [Postman](#), [Pytest](#), [Selenium](#), [Elasticsearch](#), [Razorpay](#), [Stripe](#), [Agile](#), [Scrum](#)

Professional Experience

Essentia.dev

Oct 2024 – Present

Full Stack Developer

Noida, India

- Built and maintained scalable applications using **Django**, **FastAPI**, **React**, **Next.js (App Router)**, **TypeScript**, **PostgreSQL**, and **MongoDB**.
- Leveraged **Next.js** for server-side rendering (SSR) and optimized core web vitals, resulting in faster load times and improved frontend performance.
- Developed AI-powered features using **LangChain**, **OpenAI API**, **RAG**, **AI Agents**, and **ChromaDB**, reducing manual work by **40%**.
- Improved application performance through database optimization, indexing, and Redis caching, reducing API response times by **60%**.
- Developed ETL pipelines using **Pandas** and **Databricks** and automated workflows using **Celery** and **Temporal**.
- Containerized applications with **Docker** and deployed services on **AWS** using **CI/CD** pipelines, reducing deployment time by **50%**.

Naresh i Technologies

2023 – 2024

Software Developer Intern

- Built full-stack applications using **Django**, **React**, and **PostgreSQL**.
- Developed REST APIs, integrated third-party services, and created reusable frontend components.
- Collaborated with development teams to deliver client-focused solutions using Agile practices.

Dotsquares

May 2022 – Oct 2022

Backend Developer Intern

Remote

- Developed Django REST APIs connected to SQL databases.
- Improved performance through query optimization and caching techniques.
- Wrote automated tests using **Selenium** and **Pytest** to improve application reliability.

Projects

Vrddhiman Analytics | [Python](#), [FastAPI](#), [React](#), [MongoDB](#), [Redis](#), [Azure](#), [Temporal](#)

[Link](#)

- Built a business analytics platform with ETL workflows and real-time data processing.
- Developed scalable APIs, implemented caching, and automated long-running workflows.
- Integrated Azure Blob Storage for secure file management and reporting.

Padel Match | [Django](#), [React Native](#), [PostgreSQL](#), [AWS](#) | Google Play Store — 500+ installs

[Link](#)

- Built and maintained a sports community platform available on Google Play Store with **500+ installs**.
- Developed secure REST APIs, payment integrations, and backend performance improvements.

Certifications

AWS Certified Cloud Practitioner (2025)

Education

AKTU University, Lucknow

2020 – 2024

Bachelor of Technology in Computer Science Engineering

First Class | Grade: A
